ITS Contest – International Talent Support launches its new edition. Created in 2002, the pioneering competition writes a new chapter in its decades-long mission to intercept **the most interesting creative talents** from all over the world. ITS Contest 2023 is open to emerging designers and students enrolled in fashion, accessories and jewellery courses worldwide, who can submit their collections between **May 10th and September 10th, 2023**. Finalists will be announced in **November 2023**.

All competitors will also be able to enter the **ITS Artwork** selection, in partnership con **Swatch Art Peace Hotel**, an evaluation of their potential on the basis of their portfolios, the **ITS Special Mention powered by Vogue Eyewear part of EssilorLuxottica**, the **ITS Sportswear Award powered by Lotto Sports** and the **ITS Digital Fashion Award**, dedicated to digital projects.

Over the last two decades, ITS Contest has scouted hundreds of trailblazing creatives who have contributed to changing the face of contemporary fashion. Many of them now work in the most important maisons or have launched successful eponymous brands - **Demna** (Creative Director of Balenciaga), **Matthew Blazy** (Creative Director of Bottega Veneta) and **Richard Quinn** (the first designer to receive the design award established by Queen Elizabeth II in 2018) are just a few. They are now members of the global community fostered by ITS Contest over the years - a borderless and multidisciplinary network of fashion creators, journalists, teachers and observers that includes some of the most important and influential names of the world of art, design and media.

Twenty years of painstaking gathering of portfolios and pieces produced by contestants - **14,758 portfolios, 1,089 dresses, 163 accessories, 118 jewels and over 700 photographic works** - has resulted in an incredibly rare collection which traces the evolution of contemporary fashion. Today it is at the heart of **ITS Arcademy - Museum of Art in Fashion, the first contemporary fashion museum in Italy**, which opened in Trieste on April 18. ITS Contest 2023 will continue in this tradition, with new artworks, garments and objects to be included in ITS Collection.

ITS Arcademy will be home to the competition's final stages. Contest finalists will be hosted in Trieste for a one-week residency during which they will be able to develop their artistic projects under the supervision of industry experts and previous finalists.

Born To Create

"As living beings, our innate talent is to perceive the order around us. Every time we imagine, every time we take a different, unpredictable path, we subvert the flow of events: a revolution begins, and a new world is created. So if life is the ultimate act of rebellion, then creativity is our tool. And we were born to use this tool. We were born to create."

The concept of this edition, **Born To Create**, is dedicated to one of the most important characteristics of the human being: creativity. An intrinsic yet often neglected human trait, it is part of our essence - that part which ITS Contest has always challenged and stimulated contestants to express.

Local Support

ITS Contest 2023 is supported by the **Friuli-Venezia Giulia Region**, **PromoTurismo FVG** and **Fondazione CRTrieste**, in an important synergy of efforts within the territory with the aim of placing Trieste on the map of international creativity.
